

## DI211DS

Dishwashers, Universal, Fully-integrated built-in , 60 cm, Number of place settings: 13, Black, D

### DELAY TIMER

A delay timer can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

### HALF LOAD FLEXIZONE

The ½ load Flexizone allows you to wash a reduced load saving energy, water and time and there are no restrictions on where the items have to be placed.

### AQUASTOP

Most Smeg dishwashers have Total acquastop, an electronic device fitted to the water intake hose and the base of the machine, which monitors water levels in the machine, detects leaks in the hose and switches off the water supply immediately directly from the source when necessary, preventing water spillages onto the floor.
