

Wash, dry, wear. In one go.
The AEG Washer Dryer 6000 Series offers an all-in-one solution to laundry, even woollens and delicates. A single-cycle mode can be applied to five different care programmes, allowing the automatic shift from washing to drying. Gentle care guaranteed, in fewer steps.

Product Benefits & Features

Washed and dried. In a single cycle
Wash and dry your wardrobe – including delicates and woollens – without the need to manually move between machines. A single-cycle mode can be applied to five programmes at the press of a button. For effortless, all-round care.

- Washing capacity: 8 kg
- Drying capacity: 4,0 kg
- 1600 RPM spin speed
- Cotton programmes
- Synthetic programmes
- Delicate programmes
- Wool plus programme
- Easy iron programme
- Stain action option
- Sensitive option
- Silent system plus
- Inverter motor
- Aqua control and alarm
- Automatic child safety
- A class wash performance

For efficient clothing care. Saving both energy and water.
ProSense automatically adjusts the machine's settings to accommodate the weight in the drum – ensuring optimum care. The tailored treatments can save 30% energy when washing and drying smaller loads.

Performance to rely on. Inverter motor
The inverter motor ensures reliable, efficient operation. Its magnetic design allows quiet, contactless drum rotation – compared to other models using brushes – for reducing energy consumption and noise.

Reduce wrinkles with steam
Reduce wrinkles and refresh fabrics with the power of natural steam. The 25-minute programme not only helps relax fibres in your favourite garments, but also reduces the need for strenuous ironing. It can even be used as a shortcut for laundering lightly-soiled items.

Laundry on your time, with two quick programmes
Two quick programmes are built in to allow efficient laundering, even when time isn't on your side. Choose the 20-minute cycle for loads up to 3kg. Or the one-hour NonStop cycle, offering a rapid, all-in-one service for 1kg loads.

Product Specification			
Series	Other series	Weighted energy consumption in kWh per 100 washing cycles of eco 40-60 programme (EU 2017/1369)	
Drum volume	52		73
Motor System	Inverter	Annual energy consumption, kWh, Washing & Drying	
Installation	Freestanding		266
Dimensions (mm) (HxWxD)	847x597x534	Noise Level	76
